have here is in this log."

The court asked: "Was there any point near Clenfuegos where vessels could have found protection from the sea on May 24?"

The witness of the few notes I ing on either side."

"Were you then within range of the betteries in the vicinity of Clenfuegos with the heavier guns of your ship?"

Saw No Batteries

The court asked so where evasible bout have found protection from the sea on May 24?"

The witness replied: "I do not think that unless we had gone up probably to the liste of Pines there was any place, so far as I can remember now, there would have been found smoother weather than we found off Clenfuegos under the weather than we found off Clenfuegos under the could not have coaled any of the vessels on May 25 had you been ordered to do 20?"

To this the reply was: "I should judge so, to the best of my knowledge and belief. I say I could coal at any time, but, then, I could not have coaled confortably. For the other ships I was what we call a mil if I had my choice I would not have coaled on that day."

As he left the stand Captain Miller asked that he might be excused if head shown any temper. "I feel a little bit touchy about the Merrimac, had displayed no temper. "On the said.

Admiral Dewell said he had first failen command of Commodore Schler as the command of Commodore Schler beauty quoted from Admiral Schley's letter to the senial committee on naval affairs, dated Feb. 18, 1899, saying: "After having been informed by the scouts commanded by such officers as Sigebe. Jowell and Wise that, although they had seen northing of captain the phad seen northing of captain the pha

a letter to Commodore Schley staring that that was a fact.

The court here asked a question which opened up the coaling question. The question was: "How far could the Minneapolis thave gone with her 400 tons of coal at the time you state?"

"If I had burned 400 tons of coal I would have made something like 1,200 or 1,300 miles. That would have left the bunkers empty. I was burning about ninety-five tons a day, and on that making fourteen or fifteen knots."

Drawing from Captain Jewell the fact that the distance from Santiago to the West is 850 miles, Mr. Raynor said: "In view of what you said just now, will you explain the signals I read: "3:30 p. m., May 26, flagship to the Minneapolis: flave you enough-coal to go to Key West?" Minneapolis to flagship: Just enough. How do you explain that?"

"I am giving my recollection at the fine. As I said, my coal supply was reduced, and I was concerned. There were a great many signals being made, and I replied to the signal without consulting the coal account particularly, and if considered that three days' steaming was about the limit I could safely go."

"The court here asked a question. The could have left the bunkers epone with her 400 tons of coal at the time you said in a should have left the bunkers empty. I was burning about ninety-five tons a day, and on that the distance from Santiago to the bunkers empty. I was burning about ninety-five tons a day, and on that the distance from Santiago to the bunkers empty. I was burning about ninety-five tons a day, and on that the distance from Santiago to the bunkers empty. AND QUEEN OF ITALY TO VENICE Mrs. Valentine Tells How

"I never saw any signal from her. I did not maneuver in obedience to any signal from the Brooklyn. I did not see any signals aboard her."

"Any written or verbal instructions?"

"None whatever."

"What instruction, oral or written, did you have from Commoders Schley. ed that the commodore understood the signal unless he knew something about it, could he?"
"I took it for granted he understood it."

what instruction, oral or writter to the order of blockade or order of battle while a part of the fly ing squadron?"

Order of Blockade.

"Well, you found out that he did not understand it, did you not?"

"No."

Mr./Raynor questioned Admiral Evans at some length concerning the signals as displayed on the coast near Clenfuegos, which the admiral said the officer of the deck had told him had been seen on May 22 and 23, but the witness said that he had had no conversation with Admiral Schley about these lights and had made no report to him of their appearance or significance.

Positons of Battleships.

Mr. Raynor then changed the base of his examination from Clenfuegos to Santiago, and began by asking Admiral states and cruise in that formation."

"Was there any prescribed order of battle by which you would have been guided if the enemy's ships had come out of Santiago harbor prior to June 1.1895?"

"There was none."

Rejurning to the departure of the flying squadron from Clenfuegos, Mr. Hanna asked: "What steps were taken, if any, to mask the movements of that squadron in accordance with orders?"

Mr. Raynor then changed the base of his examination from Clenfuegos to Santiago, and began by asking Admiral Evans if he had seen the official chart showing the positions of the Brooklyn and other battleships on the day of the battle of Santiago, July 3, 1898. The admiral replied that he had seen the chart, but that it was wrong.

Mr. Raynor—When did you first know about the turn of the Brooklyn as you say, a short distance from the Texas? flying squadron on blockade, except, I believe, we did have a light in the stern the Colon?
"None, if by 'further' you mean the action of May 31."

action of May 31."
"Was the fire of the enemy's batteries on the 31st heavy enough to seriously endanger the attacking ship?"
"No, sir; it was not heavy at all. The projectiles mostly fell a long way short of us. Two, I think, passed over my ship."

snip."
"In the attack on the Colon on May
31 did any of the enemy's shell fall
near the squadron?"
"Two, I think, fell near the Iowa."

Iowa Came Home Coaled. "Would it have been possible for the

Iowa to coal from the Merrimac on the afternoon of May 26?" "It would have been."

WAS PLAN TO ESCAPE

Startling Story Told in Abe Majors' Trial-Plot for Jail Delivery.

Logan, Utah, Sept. 30.—The district ourt did not convene until nearly noon oday, but before it adjourned at 1 o'clock the prosecution created somewhat of a sensation by indicating its
intention to produce evidence later
which will show a carefully detailed
plan to break jail here, originated by
Majors while in the state prison, and
which was to be carried out by exconvicts. Mr. Allison presented to defendant a paper upon which was drawn
a complete and accurate ground plan
of the jail and a description of its surroundings. Majors denied being the
artist whe drew it. He also denied
the authenticity of the notes accompanying it, but admitted the writing
was a remarkably good counterfeit of
his own. This evidence will probably
be presented tomorrow.
Lieutenant George W. Gibbs of battery A was the important witness of
today. He testified as to range and
power of the army revolvers like the
one Majors used. He said positivelythey would not shoot through a man
the size of Brown with the clothing
on that the latter wore. He also swore
that the bullet which killed Brown
came from above him.
Colonel Tatlock also testified to the
same facts as Lieutenant Gibbs. At
the conclusion of Tatlock's testimony
